

EnterMoCase for BlackBerry

The EnterMoCase™ is a powerful combination of technologies in a compact ruggedized package equipped with enhanced data functionality including barcode scanning and signature capture to work with the BlackBerry® Curve™ smartphone. It is designed to meet the needs of workers performing mission-critical tasks in logistics transportation and field service.

The Entermo works best for the following vertical solutions:

- Field Service, Warehouse, Logistics for the 1D unit
- The 2D unit will apply to the airlines, postal, warehouse, entertainment, medical, etc
- *Examples:* Field merchandiser is sent a job, attends the job, completes the tasks and scans the stocked used, has the job signed off, takes an image and uploads to the back end server
- *Examples:* Medical – patient management to replace pagers, attend the patient, barcode the patient's tags, administer the tasks, sign off the task with signature, that also records date and time
- *Courier Delivery:* using the BlackBerry for GPS mapping, delivery and signature recording and barcode the package with date and time
- *Field service:* Photo copy people are pushed a job, attend the job, use parts that are barcode scanned, complete job sheet, customer signs, completed job is invoiced

Integrated barcode scanning
